

The Complete AI / ML Roadmap

Hand-picked free YouTube courses, in the exact order to learn them — by Rishit (@rishitlalan_16)

Follow these steps **top to bottom**. Don't jump ahead — each step builds on the last. Where it says **PICK ONE**, just choose a single course and finish it; watching three courses on the same thing is how people get stuck. Master Python and the maths first, then the libraries, then ML, then **build projects**.

1

Master Python PICK ONE

The foundation. Get comfortable here before anything else.

The Ultimate Python Course

CodeWithHarry · 10h 53m

<https://www.youtube.com/watch?v=UrsmFxEIp5k>

Harvard CS50's Introduction to Programming with Python

freeCodeCamp / Harvard · 15h 57m

https://www.youtube.com/watch?v=nLRL_NcnK-4

Python Full Course

(shown in reel) · 6h 14m

► [link in the post / DM \(couldn't auto-verify\)](#)

2

NumPy

Arrays and numerical computing - the math engine behind all of AI.

Complete Python NumPy Tutorial

Keith Galli · 58m

<https://www.youtube.com/watch?v=GB9ByFAIAH4>

Learn NumPy - Full Course

freeCodeCamp · 58m

► [link in the post / DM \(couldn't auto-verify\)](#)

3

Pandas PICK ONE

Load, clean, filter and analyze tabular data. (Pick one.)

Complete Python Pandas Data Science Tutorial (2024)

Keith Galli · 1h 34m

<https://www.youtube.com/watch?v=2uvysYbKdjM>

Pandas & Python for Data Analysis by Example

freeCodeCamp · 4h 58m

<https://www.youtube.com/watch?v=gtjxAH8uaP0>

4

Matplotlib

Turn your data into graphs and charts.

Intro to Data Visualization with Matplotlib

Keith Galli · 32m

<https://www.youtube.com/watch?v=DAQNHZ0c05A>

Matplotlib Tutorials (full playlist)

Corey Schafer · 10 parts

https://www.youtube.com/playlist?list=PL-osiE80TeTvip0qomVEeZ1HRcEvtZB_

5

The Maths

As important as the code. Do NOT skip Linear Algebra, Probability & Statistics.

Essence of Linear Algebra (full series)

3Blue1Brown · 16 lessons

https://www.youtube.com/playlist?list=PLZHQ0b0WTQDPD3MizzM2xVFitgF8hE_ab

The Only Statistics Roadmap You Need

CampusX · 12m + resources

https://www.youtube.com/watch?v=2GV_ouHBw30

6

Machine Learning

Now you're ready. Learn Regression, Classification, Clustering & more.

Scikit-learn Crash Course - ML Library for Python

freeCodeCamp · 2h 09m

https://www.youtube.com/watch?v=0B5eIE_1vpU

7

Build Projects

Don't just watch tutorials - build. This is what actually makes you job-ready.

Project ideas - watch my Projects reel

(linked in the post) · reel

► [link in the post / DM \(couldn't auto-verify\)](#)

That's the whole path.

Save this, follow it in order, and actually finish each step before moving on. Tutorials build knowledge — projects build a career. Keep going. — @rishitalan_16

Daily ML & LLM content for engineering students · @rishitalan_16
